

Technology Stack

Date	15 July 2026
Project Name	Strategic Product Placement Analysis
Maximum Marks	2 Marks

Define Your Technology Stack:

Identify the programming languages, frameworks, databases, front-end tools, back-end tools, and APIs used to build the solution.

Technology Stack Details

S. No	Architecture Component / Layer	Technology Chosen	Justification / Purpose
1	Frontend / Client-Side	HTML, CSS, Bootstrap	Creates a responsive and user-friendly interface for displaying dashboards and project information.
2	Backend / Server-Side	Python, Flask	Handles application logic and serves the embedded Tableau dashboard and story pages.
3	Data Storage	CSV / Flat File (Product_Positioning.csv)	Stores product positioning, pricing, and sales data used for analysis.
4	Cloud / Hosting / Deployment	Tableau Public	Publishes interactive dashboards and story online for easy access.
5	Version Control & CI/CD	Git, GitHub	Tracks project changes, enables collaboration, and maintains version history.
6	Third-Party APIs / Other Tools	Tableau Desktop, Tableau Public	Used for building and publishing interactive visualizations, dashboards, and stories.
